CanSTEM Education Private School — Mar 2024 – Present

Brampton, ON

Web Developer & Programmer Full-time · Feb 2026 – Present

User Experience Designer Part-time · Mar 2024 – Mar 2026

Enrollment & School Operations Platform — Case Study ↗

Production system supporting enrollment, academics, payments and school operations.

- Built **enrollment workspaces** and quick-access shortcuts that organize each program's forms and submissions for admissions staff.
- Built the **accounting module** for income, expenses and website payments, giving administrators one place to reconcile school finances alongside enrollment records.
- Built a **staging-first release workflow** that verifies every change before production and requires owner approval, reducing deployment risk and keeping releases traceable.

School Website & Moodle LMS — Case Study ↗

- Maintain the school's **WordPress** site and **Moodle LMS**, from page builds and enrollment forms to SEO and hosting.

MSPixelPulse Web Solutions — Sep 2025 – Present

Toronto, ON mspixelpulse.com ↗

Founder · Web Developer & UX Designer

- Turned a Humber capstone into a **live web design and development studio**, leading strategy, UX, engineering, hosting and client delivery.

- Built the **studio platform** in React and Node.js: service and pricing pages, a quote builder, and client, admin and developer portals for projects, messages, files and invoices.
- Designed an **AI engineering system** of 20 specialist agents (build, QA, accessibility, security, release) across Codex, Claude Code, Gemini CLI and Copilot, with human approval for every external action.

Accenture — Jan 2021 – Nov 2023

Ahmedabad, India · Citi client programs

User Experience Designer Dec 2021 – Nov 2023

Software Engineer Jan 2021 – Dec 2021

Official title: Custom Software Engineering Analyst

- Designed reusable UI components and states for **Data Mind NextGen**, a Citi data-lineage platform, improving consistency across complex, data-heavy screens.
- Built responsive, reusable **Angular components** and REST-connected features on the MEAN stack in Agile sprints.
